

7.2 Best Practices

Best Practice I

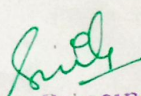

Title: Symbiosis of Social Work

The attempts were made to create goodwill ambassadors of society in the form of selfless volunteers that worked for various social causes. The student volunteers exhibited a great sense of duty, devotion, responsibility, care and well-being through their relentless service by conducting door to door campaign, rallies, peace march; the students served in various capacities as counselors, teachers, healers and motivators. Rally on "Save Water, Save Life," webinar on "Road Safety and Awareness," visit to Nirmal Dham Old Age Home are some fine examples. The task was quite fruitful but convincing the beneficiaries was challenging and required persistent efforts.

Best Practice II

Title: A Pragmatic Ecological Approach of the institution

Practical measures were taken to create environment friendly and protective layer in laboratories and offices of the college so as to create a balance between ecology and technology. The infrastructure of the college borne a more positive outlook by following nature's "Green Mantra" in the form of various indoor and outdoor plants placed in various departments, labs and offices that, in turn, helped in harmonizing the buzz of modern equipments and chemicals with the bounty of mother earth's benevolence.
